March 11, 2020

Best Western Plus
930 Burnham Street
Cobourg ON K9A 2X9

Time: 9:00 am – 3:00 pm | Lunch and refreshments included
Registration Fee: OSCIA Members \$60 | Non-members \$75

PRESENTATIONS FROM:

Eileen Kladviko | Cover Crops, Drainage, Earthworms & More
CEU 1: Soil & Water Management

- Professor of Agronomy at Purdue University
- How can you improve your soil's resilience in bad weather years? Tile drainage is only part of the answer. Cover crops, tillage, and more.

Cynthia Kallenbach | Soil is Alive! How to Build a Healthy Soil Microbiology
CEU 1: Soil & Water Management

- Assistant Professor in Soil Ecology and Biogeochemistry at McGill University
- Healthy, productive soils don't happen overnight. What does it take to build soil organic matter? A deep dive into how microbes manage our soils.

Jake Munroe & Sebastian Belliard, OMAFRA | Soil Tests—What is Really Important?

CEU 1: Crop Management

- Where can you get the most bang for your buck? — from soil fertility tests to the newest soil health tests.

Jake Munroe

- Soil Management Specialist for Field Crops with OMAFRA

Sebastian Belliard

- Soil Management Specialist for Field Crops with OMAFRA

LOCAL FARMER DISCUSSION PANELS:

- Compaction
- Handling & Maximizing Manure
- Getting Started with Soil Health
- Erosion: Managing Field Landscape

See back for concurrent session details and CEU credit values.
